Notes:

Lightolier 3D Printed Decorative High Bay, IHB series, takes a classic form redesigned in a intergrated modern modular decorative form. Its not often that a traditional High Bay gets a complete redesign makeover! Light-weight yet durable polycarbonate construction reduces weight that helps ease handling during installation. Unleash your inner creator and select from a variety of color options to help tailor your design.

All product specializations, dimensions and styles are preliminarily and are subject to change.
