

Innovation in bloom

Designed with L-Prize winning technology, modular design, and robust performance, **BloomBox** embodies the next generation of Ledalite's **Luminous Environmental Design Approach**. It presents specifiers, owners, and occupants with the opportunity to experience performance without compromise, complemented by unique aesthetics and flexibility that can benefit projects in design and throughout their lifetime.

BloomBox by Ledalite

Recessed Architectural 2x2

Flexibility

- Field-replace LED module trays
- Digitally rezone fixtures with Interact controls to avoid rewiring, extra equipment, and costly labor
- Scalable control via Interact allows for added functionality and ease of installation with minimal to no additional hardware

Robust Performance

- Efficacy of 170 lm/W
- AccuRender with CRI 90+ contributes to space aesthetics, occupant comfort, and energy efficiency

Occupant Comfort

- UGR ≤ 19 contributes to visual comfort
- Personalize occupant control with Interact

Sustainability Benefits

- Potential to contribute to up to 5 WELLv2 light features
- Up to 14'x14' O.C. spacing streamlines luminaire use
- Materially-efficient design avoids unnecessary waste
- Native Interact control options provide luminaire-level lighting control for additional energy savings

Designed with intention

- Daylight, occupancy/vacancy sensing, and control are integral to fixtures when using Interact, avoiding clutter of additional devices
- Shallow depth of 2.18" for easier ceiling detail coordination
- Unique aesthetics create a highlight in any space
